Accommodation: Quito

Day 2.- Pick up and transfer to Isabela Island

Pick up by our staff at the Baltra airport, transfer to Santa Cruz, on this island we will have a short break for lunch, and take an inter-island boat to begin the transfer to Isabela Island estimated travel time 2 h 15 min .

Reception of our guides at the Isabela dock, transfer to the Hotel, registration and delivery of rooms.

City tour, walk along the pier, Dinner at a restaurant on the island.

Day 3.- Bahia tour, Tintoreras, Wetlands, Galapaguera cradle of the sun

After a wonderful breakfast at the Hotel we started our activities, we headed to the dock to take a boat and start the BAHIA TOUR, Tintoreras islet, shark channel, back to the island we took a break and took advantage of the time for an exquisite lunch.

In the afternoon we begin activities and head to the wetlands for a 3-hour walking tour to discover the diversity of wildlife in the area. See animals such as flamingos, tortoises, and many species of birds along the way. Learn about the area's rugged volcanic terrain with your guide and even see the island's first cemetery with ancient tombs of its first inhabitants. Hotel pickup and drop-off is offered.

La Galapaguera is a giant tortoise breeding center managed by the Galapagos National Park, Isabela Direction. In this center you can learn about the biology of the giant or galapagos tortoises, which give the islands their name, as well as observe various species of tortoises from Isabela Island in captivity.

Day 4.- pick up and transfer – Charles Darwin Station – Station beach

Pick up by our Guides, at the Santa Cruz dock, breakfast, room distribution. Visit to the CHARLES DARWIN STATION, later we will enjoy LA ESTACION BEACH, return to the hotel to enjoy lunch. In the afternoon we will visit the cracks, we will have a transfer to the Puerto Ayora dock to make a short navigation until we reach Punta Estrada, opportunity to observe blue-footed boobies, frigates, continuation of our tour, visit to the beautiful German beach. beige sand, here we will enjoy this spectacular beach.

Continuation of our tour through the salt mines until we reach the GRIETAS, it is a rock formation which houses a natural pool of turquoise water, in it we can take a refreshing bath and we can snorkel accompanied by beautiful colorful fish, on our way back we will have a delicious lunch to continue with our activities,

Day 5.- Tortuga Bay Beach (Approx. 45 min walk)

After a delicious breakfast, we will take a walk to the beautiful beach of TORTUGA BAY, considered the most beautiful in the archipelago, spectacular landscapes, sun, turquoise sea and white sand await us, we will enjoy a refreshing swim accompanied by marine iguanas and colorful fish. Return to the hotel, lunch. In the afternoon we will enjoy the hotel facilities and have dinner and accommodation

The bay in its entire length and width is an excellent place for swimming and snorkeling. Sea turtles, rays, sea lions, fish and the crystal clear, warm water are unique attractions.

Day 6.- Transfer to san cristobal island – la loberia

Transfer from Santa Cruz to San Cristobal island 2H aprox., pick up by our Guides at the San Cristobal, breakfast in a restaurant on the island, in the afternoon we will visit LA LOBERIA.

It is a coral sand beach that has been named for the large number of sea lions that rest on its rocks and sand. It is one of the places where you can practice surfing and snorkeling.

On the way back we will have an exquisite dinner and accommodation.

Day 7.- Interpretation Center – Cerro Tijeretas – Playa Mann

After a good breakfast at the Hotel, we will visit the INTERPRETATION CENTER. The tour offered by the facilities of the Interpretation Center takes us through the history of the Islands, in their natural, human and conservation contexts.

The Natural History Room explains a series of natural circumstances such as the volcanic origin of the islands, their distance from the continent, their marine currents, their special climate, the arrival of different species, their establishment, among others. Continuing with our tour, let's visit the HILL TIJERETAS, about 2 kilometers from the interpretation center of the national park, following a perfectly marked path, we will reach this small hill from where we can appreciate both the coast and the nearby forest.

It is called Tijeretas, after the frigate birds (commonly known as Tijeretas because of the scissor shape of their tail) that can be seen on the cliff near this hill. We took a short break to enjoy PLAYA MANN, it is a small but beautiful beach. Just outside Puerto Baquerizo Moreno, here visitors can enjoy the sun, sand and sea, accompanied by friendly sea lions.

PUNTA CAROLA. - This beach is the ideal place to see sea lions (*Zalophus californianus wolebaeki*) among the vegetation and marine iguanas (*Amblyrhynchus cristatus*) are present on the rocks.

We returned to the hotel for a super lunch and enjoy the hotel's facilities. Dinner and accommodation.

Day 8.- Transfer to the Airport – San Cristobal – Quito

After breakfast we will take our transportation to go to the airport on San Cristóbal Island to take our return flight to the city of origin.

Day 9.- Transfer Out Quito International connections.
